 Casablanca

SUMMARY

Full Stack Developer with 2 years of experience building modern enterprise web applications. Specialized in Next.js, TypeScript, and scalable frontend architecture, with hands-on experience developing Java APIs and backend integration. Comfortable owning complex products end-to-end — from architecture and technical decisions to implementation and performance optimization.

PROFESSIONAL EXPERIENCE

Neonovia, Full Stack Developer · R&D

06/2025 – Present | Casablanca

- Led frontend development of a SaaS platform within the R&D team, from initial design through to production deployment.
- Architected the entire frontend from scratch using **Next.js 15 (App Router)**, ensuring long-term scalability and maintainability.
- Built complex business interfaces including analytical dashboards, multi-step dynamic forms, real-time workflows, and interactive data visualizations.
- Implemented **WebSocket** for instant data synchronization, reducing user-facing latency to under 100ms.
- Contributed to backend development through **Java / Moovapps API** integration.
- Drove technical decisions around project structure, component organization, and development best practices.

Euryops, Full Stack Developer

09/2024 – 05/2025 | Casablanca

- Designed and built a modular **ERP system** spanning 8+ business modules, used daily by 50+ internal users.
- Developed the frontend with **Next.js + Tailwind CSS**, focusing on performance, user experience, and long-term maintainability.
- Optimized **MySQL** database performance through indexing and SQL query rewrites — cutting API response times by **~35%**.
- Built secure **REST APIs** with JWT authentication and role-based access control (**RBAC**).
- Implemented advanced business interfaces including real-time dashboards, multi-step forms, and filterable/sortable data tables.
- Worked closely with business teams to drive product evolution in an **Agile/Scrum** environment.

Internship · Euryops  , BPM Developer

04/2024 – 05/2024 | Casablanca

- Digitalized core business processes on the **Visiativ** platform, replacing manual Excel and paper-based workflows.
- Developed and automated approval, validation, and notification workflows — delivering an estimated **+40% gain in operational efficiency**.
- Participated in requirements analysis, backlog management, and on-time delivery within an **Agile/Scrum** environment.

SKILLS

Frontend Development	Backend Development	Database Management	Tools & DevOps
• Next.js • React.js • TypeScript • Tailwind CSS • Zustand • TanStack Query • Chart.js • shadcn/ui	• Java • REST APIs • Node.js • Laravel	• PostgreSQL • MySQL • MongoDB • Prisma ORM	• Git • Docker • Agile / Scrum • Figma

EDUCATION

Bachelor's Degree in Web & Mobile Development,

2024 – 2025 | Casablanca

School of Technology (EST) — Casablanca, Morocco

Specialized Technician in Full Stack Development,

2022 – 2024 | Casablanca

OFPPT — ISTA NTIC 2, Casablanca, Morocco

CERTIFICATES

CS50 Introduction to Computer Science  Harvard University — HarvardX	Microsoft Azure AI Essentials Professional Certificate  Microsoft	Atlassian Agile Project Management Professional Certificate  Atlassian	Scrum Fundamentals — The Basics  LinkedIn Learning
Kubernetes — Fondamentaux & Déploiement de Conteneurs  LinkedIn Learning	Certificat d'Anglais — Niveau C1 (Avancé)  EF International Language Campuses		

PROJECTS

Pulse — Full Stack Social Media Platform  , Next.js · TypeScript · Tailwind CSS · PostgreSQL · Prisma ORM

A full-featured social networking app with a news feed, likes/comments system, real-time notifications, and secure authentication. Built on a scalable server-side rendered architecture.

Travely — Full Stack Travel Booking Application  , Next.js · TypeScript · Tailwind CSS · Laravel · MySQL

A full-stack travel booking platform featuring destination management, availability tracking, online reservations, and an admin dashboard. Built with a decoupled architecture — Laravel REST backend consumed by a standalone Next.js frontend.
